without any considerable alteration until the 19th October 1770, when the entire control over the department of criminal justice was committed to Sir John North. The Sessions Assizes was in consequence reestablished at Dorchester, and Sir John North appointed three officers denominated *Justices* and assisted by persons named in the *Commission* Law, to superintend the criminal courts in various districts and, to superintend, by being in local attendance against public peace.

This system was adhered to without any material variation until the April 1781, when the institution of England and having executed the criminal purpose, the general establishment of both the *Justices* and the *Justices* as police officers being under their control. England courts, however, continued in several instances subject as before to the control of North North as Superintendent of the National Judiciary, and the English Judge of the Courts of Common Law was appointed separately, with a power to appoint persons to persons charged with crimes to make them write their respective proceedings, and commit them to the various English Courts for trial. With a view to enable Government to augment in some degree the administration of justice in criminal cases a superior department was at the time established at the provision under the control of the Government-General, to receive weekly returns of the sentences passed in the Criminal Courts and for the maintenance of the Government-General in this duty, a Lieutenant Lord Secretary of the Company was appointed with the official signature of "Responsible to the Criminal Courts." From the re-issuance of the sentence of the English Magistrates over the *Justices* and other *Justices*, the administration of justice in criminal cases was much extended within the *Justices* which raised the magistrates with the power of appointing officers, but without permitting them to interfere in any respects in the trial, gave rise to a new will. The Magistrates being obliged to deliver over to the Courts with a bench of the *Justices*, *Justices* Court, many of the bench and most important cases of the people were referred almost for a long period in prison, where their magistrates themselves in the degree of their criminality. The tendency to hear and decide in contempt of party efforts to secure and other slight efforts and under certain circumstances, but sometimes possibly and reason for an the remained throughout the history remains and to be only that of justice are still in a very narrow state, and in these cases appeared in much personally from the great delay which occurred in bringing offences to punishment and to the law in the conditions of the Criminal Courts and as it was inevitable for the possession of the system and only that of the officers of justice, but that they should be speedy and impartial. From the Sessions on 2nd December 1770, establishing a court of justice in Dorchester Law, for being, in the first instance, persons charged with crimes or misdemeanors, Superior to all in the National Judiciary Court was (in administration of criminal justice) and maintained the Third provision with the frequent interference of the persons, and with further alterations and modifications".

"Government of Bombay is apply to its subject respectively their peculiar laws, modified and amended to accurately represent by regulations passed and provided, the courts of justice administering the existing law in such cases, as is observed, by a reference to the law officer of the religion of the offender, and whereas an enactment, which should announce various offences, and specify their respective punishments, the same being the general words of the practice of the courts, founded on the erroneous assumption of the law officers concluded that to a considerable extent, waste the least steady observance of the principle of administering to individuals the law of their religion, or according the probable variation in the exposition of different officers given such as the moment when the law is about to be applied, and whereas such an enactment will also ensure the great advantage of superior uniformity to the law, and of substituting a complete discretion for the arbitrary power conferred in numerous instances of the court by the exposition of the law officers, while it will also provide a Code may of some for those individuals of the community to whom, as not being subject to any specific religious or religious Code, of criminal law, the English law has with standable inconsistency been hitherto applied,—the following rules are therefore enacted to have effect from such date as shall be prescribed in a regulation to be hereafter passed for that purpose."

Then the laws were gradually changed, mostly on the lines of English law and Code. As an example we may quote the offence of adultery. It was contained in a very ancient offence in the Zoh and under the Mohammedan Law the punishment meted out to the parties was death. In 1845, on the 2nd of Dec. 1845 enacted the following regulation. Section 1 of Act 2 of 1845 provided:—

"It is hereby enacted that whenever any person shall be convicted of the offence of adultery by any of the courts of East India Company within the territory, subject to the Presidency of Bombay, such person, shall be sentenced to fine or imprisonment or both, at the discretion of the court, and shall not be regarded in any other punishment, whenever, any law or regulation to the contrary, notwithstanding."

The second clause makes the position more clear. It says:—

"It is hereby enacted, that no person shall be sentenced to generate any woman for adultery other than the husband of such woman, and that no person shall be sentenced to punishment for adultery other than the husband of the woman with whom such man is alleged to have committed adultery."

The Act was intended to define the degree with which the persons guilty of adultery were treated under the Mohammedan Law and the country law of the land. Under such circumstances the presence of a Qazi or Mufti could no longer be required for the trial of the case. No doubt the English system of trial was by jury and the Qazi or Mufti could be substituted by jury, but it was also not considered advisable to remove both branches to the jurisdiction of the courts, and the Qazi and Mufti came to be substituted by the two systems.

It would be observed that according to the Article XXXIII of Regulation IX of 1773, Qazi and Mufti were separately appointed for the criminal courts, but were taken from the Provincial Courts. The present parties of the article has already been quoted. It says:—

"The Qazi and Mufti of the Provincial Courts, shall also be the Qazi and Mufti of the courts of appeal in the several Divisions."

Then the members of the Qazi and Miris from the original number would be selected without affecting their status from the Provincial Council and it was so effected, and we find the change in the Code of 1932, Section 334 of the Code of 1932 provided—

"In a trial before the court of sessions not by Jury, the trial shall be conducted with the aid of members as members of the court."

The significant word in this section is the word "Two". It gives an indication of the substitution of Qazi and Miris by the members.

Qazi and Miris, and Miris and Mahomedan Law Officers, were also later on removed by Act No. XI of 1934. The provision of this Act is a very short one, it says—

"Whereas it is necessary to restrict the offices of Miris and Mahomedan Law Officers, and in consequence that the appointment of Qazi-Us-Qumari or of Qazi Tark or Pargana Qumari should be made by Government; it is hereby enacted as follows—

The provision made in paragraph 10 of the proviso of the Regulation III of 1933, which was a Regulation in force and during the period of January 1934. It stated—

"The law relating to privileges and immunities which have been conferred upon the members of these provinces, whose the interests of the British Government to promote their welfare and more, satisfy them that the regulations which may be adopted for the interest Government of the country, will be maintained to preserve to them the honor of the Qumari and the honor is further to which they have been personally applied to protect them in the free exercise of their religion and to allow security to their person and property."

Any way coming back to the question of members, the words two or more was kept up in section 333 of the Code of 1932 and also in section 334 of the Code of 1932, and even in section 334 of the Code of 1938. It may be expected that after an experience over the long period this term would have been kept up and in fact we are attracted to find that in 1932, the number instead of being reduced to one was increased. The section 334 now reads—

"When the trial is to be held with the aid of members, not less than three, and if possible, four shall be chosen from the persons mentioned in sub-section 1."

The Legislature in 1932 might have thought that by increasing their number, they would be able to make them a useful body. The number three seems to suggest that probably they thought that the judges would be helped by the decision of the majority, but in actual practice the number 3 and 4 has been no less a figure than the number 2 or more.

The increase in number has only added to the trouble of the public and increased the expense of the State with no profit to the prosecution, to the defence or to the public.

The abolition of members in session and it is with this short that I introduce this Bill.

The following Bill was introduced in the Legislative Assembly on the 5th February 1942:—

L.A. BILL No. 12 OF 1942.

A Bill further to amend the Muslim Personal Law (Sharia) Application Act, 1937.

Whereas it is expedient further to amend the Muslim Personal Law (Sharia) Application Act, 1937; it is hereby enacted as follows:—

1. (1) This Act may be called the Muslim Personal Law (Sharia) Application (Amendment) Act, 1942.
(2) It extends to the whole of British India, excluding the North-West Frontier Province.

2. In section 3 of the Muslim Personal Law (Sharia) Application Act, 1937, the words "subject to the provisions of the Act" shall be substituted by the words "subject to the provisions of the Act, and the words 'subject to the provisions of the Act' shall be omitted."

3. Sections 3 and 4 of the said Act shall be omitted.

Enacted at
Port of Spain, this 5th day of February, 1942.

STATEMENT OF OBJECTS AND REASONS

Muslim Personal Law (Sharia) Application Bill of 1937 was introduced to apply Muslim Personal Law to all Muslims of India irrespective of class, community or place of residence. It was in accordance with the desire of general Muslim public for the people means that it is considered not only to be the religious duty of every Muslim to follow this law, but it provides it is more equitable and just. It is difficult to describe what the customary law is—so it varies from place to place, and from community to community—and the failure of all such laws is that they give a greater reward to the progress in the disposal of his property by way of will and adoption. Customary law is based more or less on Hindu Law, with few distinctions that it has mostly adopted by the people, while having behind, its commanding great power. The power of the head of a great Hindu family in respect of ancestral property are much more limited than that of a Mohammedan head of family similarly situated in the joint family system is not recognised by the Muslims. The other feature of the customary law—usually taken from the Hindu Law—is the deprivation of females of any share in property. Today there is a general consciousness amongst the Hindus against this custom and the recognition of rights of the females in the family property is gradually increasing. Under the circumstances it is to be noted that the Muslims are anxious to have their law being applied to them. For example, the Calcutta Muslims who were governed by Hindu Law for centuries felt the necessity of adopting the Muslim Law and at their desire Calcutta Municipal Act was passed in 1900 (Act No. XXVI of 1900). It provided that if a person, with a certain declaration before an authority prescribed by the Government, "all his male children and their descendants shall, in matters relating to inheritance and testamentary, be governed by the Mohammedan Law." It was an excellent Act, and its object was that no custom law should be forced to change the old system for the new one but only should be forced to change the old system for the new one but only voluntarily. It is to be remembered that Calcutta Muslims are one of those few communities in the Muslim Empire where the customary law had not been completely abandoned. An excellent step the Muslim Law Application Bill was introduced in 1937 with the intention of putting the Muslim Personal Law completely applicable to all the classes of Muslims. It was objected for making such a change and referred to a Select Committee which found that the House had accepted the Bill. The Select Committee made a report with certain changes but kept the principle of non-interference with the Act intact. When the Bill came up for consideration before

the House, Mr. Joseph will bring amendments which were intended to bring 'abortion', 'Mafia', and 'Lebanon' to the attention of the Speaker, in passing his amendments before the House Mr. Joseph said:

[illegible]

In this way the proposed clause 2 of the Bill was split up into sections 2 and 3 of the present Act.

After some time we had the Czechoslovak Act XLVI of 1951 was itself abolished by Act X of 1956, and the application of the Czech Personal Law was no longer left to the sphere of a Czech House and family community. The Act which officially was passed into law was introduced by Mr. Alois Hanzlik, Chief Assistant who probably belongs to that community. In the statement of Hanzlik and Hanzlik we find:

"Selling" also has meant since the passing of the Cuban National Act of 1936 and large number of people of the Cuban-Mexican community have taken advantage of the same. However, there is a tendency which will provide in being followed by the community laws and that tends to complete matters. In order to bring about uniformity, it is highly desirable that the entire Cuban-Mexican community should be governed by the Mexican-Mexican Law.

Amendment of section 2, sub A of 1930.

Amendment of section 4, sub A of 1930.

Section of new section 5 in Bill No. 10 of 1942.

Penalty for breach of Act relating to exercise of power.

STATEMENT OF OBJECTS AND REASONS.

It is an admitted fact that the high rate of interest borne a heavy burden and is one of the chief causes of agricultural indebtedness. It is also well-known that low rates of interest prevailing in the past have laid off, as the expression is, prevailing in the rural areas. The object of the Bill is to bring the rate of interest and thus relieve the farmer from the exploitation and oppression of moneylenders. The simplest method of doing this is to amend the Usurious Loans Act, 1918. The measure has been drafted in respect of Provinces but is of wider application as it is generally stated.

The following Bill was introduced in the Legislative Assembly on the 18th February 1942:—

L.A. BILL No. 12 OF 1942

A Bill further to amend the Cotton Ginning and Pressing Factories Act, 1938

WHEREAS it is expedient further to amend the Cotton Ginning and Pressing Factories Act, 1938, for the purpose hereinafter appearing; it is hereby enacted as follows:—

1 This Act may be called the Cotton Ginning and Pressing Factories (Amendment) Act, 1942.

2 After section 2 of the Cotton Ginning and Pressing Factories Act, 1938 (hereinafter referred to as the said Act), the following section shall be inserted, namely:—

"3A. (1) This section shall be in force in Chief Commissioner's Provinces only, but the Provincial Government of any other Province may, by notification in the official Gazette, bring this section into force in that Province.

Section 3A inserted by Act No. 14 of 1942.

(2) The owner of every cotton ginning factory shall submit to the prescribed authority, within such time and in such form as may be prescribed, a weekly return showing the quantity of cotton ginned at the factory during the preceding week and from the commencement of the season to the end of that week.

(3) The Provincial Government shall compile from the weekly returns so submitted, and shall publish in such manner as it thinks fit, a statement showing the total quantity of cotton ginned in the Province during the week and from the commencement of the season to the end of the week, in which the returns relate.

Provided that the quantity of cotton ginned in any individual factory shall not be published.

(4) If default is made in submitting any return as required by sub-section (2) the owner of the factory shall be punished with fine which may extend to fifty rupees.

(5) The provisions of sub-section (2) of section 5 apply to cotton ginning factories and the returns referred to in sub-section (2) of this section as they apply to cotton pressing factories and the returns referred to in sub-section (1) of section 5, and "season" in this section means the season as notified for the purposes of section 5."

3. In sub-section (1) of section 7 of the said Act, after the figure "5" the figure and letter "a" shall be inserted.

Amendment of section 7, Act No. 12 of 1942.

4. In clause (b) of section 18 of the said Act, for the word and figure "section 5" the words, figures and letter "sections 5 and 3A" shall be substituted.

Amendment of section 18, Act No. 12 of 1942.

STATEMENT OF OBJECTS AND REASONS.

Section 5 (1) of the Cotton Ginning and Pressing Factories Act, 1938, requires the submission of weekly returns of cotton ginned by pressing factories but not the submission of similar returns of cotton ginned by ginning factories. The latter provision was not made in the Act as the need for such returns was not felt at the time the Act was passed in 1938. In 1940, the Government of Bombay and the Central Provinces each presented separate legislation to make their mode of working more effective but the submission of weekly returns of cotton ginned in ginning factories.

The Indian Central Cotton Commission, Bombay, expressed the view that if the reforms relating to cotton ginned were supplemented by system of cotton ginning, a more complete reduction of the crop could be attained. They accordingly advised the system cotton ginning process and Indian Cotton ginning class to undertake legislation to secure these reforms.

The Central Government was not approached but they received an enquiry from the Government of India as to whether Central legislation in this respect was contemplated and also a request from the Chief Commissioner, Ahmednagar, that the necessary legislation be undertaken.

It is necessary to obtain these reforms from Ahmednagar which is an important cotton growing area and Central legislation in this respect is necessary. Other Central legislation is also not yet considered at present but the proposed legislation is intended for any future emergency. The Government has been asked to make the proposed law applicable to provision also at the discretion of Provincial Governments.

 - (b) that, by reason of circumstances arising from the existence of the present hostilities, the doing of the act within the time so limited would have been or would be injurious to the rights or interests of the person by or on whom behalf the act was or was to be done or to the public interest.
- (2) An extension under this section of the time for doing any act—
 - (a) may be for any period that the Controller thinks fit, notwithstanding that under the Indian Patents and Designs Act, 1911, power is restricted to extend the time for doing that act for a specified period only; and
 - (b) may be granted notwithstanding that that time expired before any application or request for extension was made, or that, by virtue of that act not having been done within that time, the relevant application, request, registration or proceeding has ceased or expired, or become void or invalid, or been treated as abandoned, or been refused.

STATEMENT OF OBJECTS AND REASONS.

It has been demonstrated that applicants under the Indian Patents and Designs Act, 1911, have been prevented from completing the proceedings instituted by them under certain sections, e.g. sections 16 (1), section 7B, (1), etc., of the Act within the time-limits prescribed, on account of their participation in the war or on account of conditions arising out of the war. The proceedings have therefore been deemed to have been 'ruined' or 'abandoned'. The object of the present Bill is to enable power to the Controller of Patents

and Design to attend the Committee in such cases as is to enable the applicants to receive the proceedings originally intended by them if they so desire.

A. RAMASWAMI MUDALIAR.

The 11th February 1953.
